4Q 2017 Domestic Well List for EPA.xlsx

Dave,

Information regarding the 4Q 2017 Domestic Well sampling event is summarized below. Please let us know if EPA would like to collect split samples from the wells during this event.

Thanks,

-jack

Subject: Yerington - 4Q 2017 Domestic Well Sampling

Jack,

Attached for EPA's reference is a spreadsheet that summarizes wells identified in the Domestic Well Monitoring Program (DWMP) as of October 3, 2017. No modifications to the DWMP have been made since August 3, 2017. The DWMP currently consists of:

211 wells total

182 “Yes”, we have signed access agreements (up to 10 wells are potentially sampled quarterly and 38 wells are potentially sampled semi-annually)

4 “Pending”, owner(s) have indicated that a signed access agreement will be sent

2 “Outstanding”, access agreement sent but not returned, we have been unable to contact by phone and/or in person

23 “No”, owner(s) not interested in program, have declined access to sample their well

4Q 2017 domestic well sampling is scheduled to start at 11 AM on Tuesday, November 14th and potentially last through the end of Wednesday, November 15th. During the 4Q 2017 event, “Quarterly” wells **at residences not receiving City water** will be sampled (up to 10 wells will be sampled). The second tab on the attached spreadsheet indicates the 10 wells that are scheduled to be sampled during the event. Please let me know if the EPA will be collecting split-samples this quarter.

I’ll let you know of any revisions to this information before the 4Q 2017 event.

Please let me know if you have any questions.

Thanks,

Jeremy Boucher, PE, CEM
